

LINKLIVE

LinkLive Mobile

**For On-the-Go
Healthcare Professionals**

**LinkLive handles
security, so
providers can focus
on their patients**

Enable on-the-go healthcare providers to be there for patients from any device

In today's healthcare landscape, the twin challenges of staffing shortages and an increasing preference for at-home care demand innovative solutions. LinkLive Mobile meets this need head-on, offering a secure and compliant platform that empowers mobile health providers to connect with patients seamlessly, regardless of location.

Designed with the unique requirements of the healthcare sector in mind, LinkLive Mobile ensures secure communications, safeguarding patient data and provider privacy across all interactions. The intuitive LinkLive interface ensures a consistent and user-friendly experience, allowing healthcare professionals to focus on what they do best: providing exceptional patient care from anywhere. Whether in the clinic or on the move, LinkLive Mobile bridges the gap, ensuring no patient is out of reach.

**SINGULAR PATIENT
COMMUNICATIONS PLATFORM
EMPOWERING MOBILE CARE
PROVIDERS TO CONNECT WITH
PATIENTS FROM ANY LOCATION**

**PROTECTED BY BEST-IN-
CLASS SECURITY POSTURE
THAT ENABLES COMPLIANT
COMMUNICATIONS FROM
ANYWHERE**

**ENSURE THE SECURITY
OF CRITICAL STAFF WITH
SAFETY-FOCUSED TRACKING,
WHILE ALSO REDUCING
ADMINISTRATIVE BURDEN**

Why should you choose LinkLive Mobile

Consistent, Flexible User Experience

Whether at their desk or on the go, your staff will appreciate a singular LinkLive user interface for communicating with patients, including use of a virtual number. LinkLive Mobile users can perform critical tasks from their personal devices, while still complying with industry regulations, and all channels are safeguarded by our leading security and compliance posture.

Safety-First Mobile Tracking

Empower supervisors to ensure the safety of their mobile care providers, healthcare field workers, and social workers. Our location awareness feature gives full peace of mind, while also tracking mileage for expense management. Mobile providers can update their presence state – such as busy, on task, driving, on break, or meeting with a client – for full visibility.

Secure and Compliant, by Default

LinkLive is designed from the ground up to be Soc-2 & HIPAA-compliant while being HITRUST r2 certified, ensuring all communications with patients are recorded and preserved according to internal rules and external regulations.
